

2023 Green Street Mile Within the Loop

Thursday, April 27, 2023

The Christie Clinic Illinois Race Weekend will include three days of events kicking off on Thursday evening this year. The first of those will be the Green Street Mile, which will start on Green Street just west of Goodwin and go west to the finish line near Neil Street. The race will start at 7:30 pm. To allow time for the starting line to be set up, the one block of Green between Goodwin and Matthews will close starting at 6:00 pm. The rest of the mile-long route will close at 7:00 pm. Traffic should be able to exit the area by going east or west parallel to the route and then exiting away from course.

To ensure a safe event for the approximately 600 runners expected to participate, the route will be closed at 7:00 p.m. This will allow the course to be cleared of traffic and checked prior to the scheduled 7:30 p.m. start time.

Intersections will be staffed by law enforcement and/or course team volunteers. They are there to provide security to the runners. We ask that you follow their directions. All volunteers and police officers will have traffic vests on. Some intersections may be blocked with traffic cones or barricades as well.

We anticipate that runners will be cleared of all streets by approximately 8:00 p.m.
