

2026 Race Weekend

The Michael Hogue Team Mile Within the Loop Thursday, April 23, 2026

The Christie Clinic Illinois Race Weekend will include three days of events, kicking off on Thursday evening. The first of those will be The Michael Hogue Team Mile, which will start on First Street just north of Kirby at the Grange Grove gate and go north to Green Street and then west on Green to the finish line near Neil Street. The race will start at 7:30 pm. To allow time for the starting line to be set up, the one block of First between Kirby and Peabody, and the one block of Green from Neil and Locust will close starting at 6:00 pm. The rest of the mile-long route will close at 7:00 pm. Traffic should be able to exit the area along Kirby or roads north of Green Street.

To ensure a safe event for the approximately 500 runners expected to participate, the route will be closed at 7:00 p.m. This will allow the course to be cleared of traffic and checked prior to the scheduled 7:30 p.m. start time.

Intersections will be staffed by law enforcement and/or course team volunteers. They are there to provide security for the runners. We ask that you follow their directions. All volunteers and police officers will have traffic vests on. Some intersections may be blocked with traffic cones or barricades as well.

We anticipate that runners will be cleared of all streets by approximately 8:00 p.m.
